Well, why don't I try to join. But if I can't get through or have to drop off, if you two could carry the ball from there that would be great. Does that work? Need to talk more beforehand?

Thanks Mike. It would be good to have you join in. My only concern is that neither Everett or I have a good handle on **Ex. 5 AC/DP** I think it only makes sense if it is doable on your end. If the All Hands does run over then you might be further out of Denver and a bit more challenging. Thoughts?

If it would be helpful I might be available by phone. We'll be driving through South Park and beyond, so I can't promise a good signal. But happy to try if that would help. At 10 AM we'll probably still be relatively close to Denver.
